- OEM Specifications & Quality
- Compatible for all Liebert and APC UPS Applications

**SB-RBC7 BATKIT**

**GXT2-144BATKIT**

### **INCREASING THE LIFE OF OLDER UPS SYSTEMS**

#### **The Right Choice**

When power failures occur, the runtime of any UPS system is determined by the condition of its batteries. All batteries eventually deteriorate to the point where they will not support the necessary runtime.

Rather than invest in a new UPS system, SBC Data Power offers a complete line of replacement UPS batteries that will extend and re-energize your UPS system. By replacing old batteries with fresh UPS replacement battery cartridges, you are providing superior performance from a proven supplier to the IT community.

#### **Compatibility, Performance, Safety**

SBC Data Power UPS replacement batteries are designed to be utilized in many brands of UPS systems, including Liebert, APC, Powerware, Best Power and more.

SBC Data Power UPS batteries ship fully charged, ready for immediate installation. Each shipment includes installation instructions for a convenient and safe install.

In addition, SBC Data Power UPS batteries utilize maintenance free batteries that are computer room safe and meet all OEM equipment manufacturer specifications.

#### **Best Value Solution**

UPS replacement batteries from SBC Data Power are competitively

prices, typically much lower than those offered by other UPS suppliers.

SBC Data Power UPS replacement batteries offer you the assurance of quality and reliability that only a dedicated supplier to the IT industry can provide. Our unique combination of price, quality and reliability makes SBC Data Power' your best value solution!

#### **Choosing the Right Battery Kit**

Determining which battery kit fits your UPS is at times challenging. SBC Data Power has made this process simple by making available our knowledgeable sales staff to assist with questions on your specific Liebert model.

For additional information, please call or visit us at [www.sbcdatapower.com](http://www.sbcdatapower.com).

**Company Information and Profile:** SBC Data Power provides replacement batteries for high availability power systems for UPS, VOIP, phone and telecommunications, emergency lighting and other critical power applications.

The company's products and services are engineered for those with the responsibility of implementing, maintaining and supporting mission critical applications.

Associated services of equipment sales, diagnostics, installation and equipment relocation and battery testing are also provided.
